

We Are DIMOCK

2019 ANNUAL REPORT

We are Dimock and we are STRONGER TOGETHER.

The Dimock Center has always been a special place. It is a home for families seeking shelter, support for patients along their road to recovery, a resource for families in need, and a foundation for children to learn and grow. **Our ability to thoughtfully listen to the needs of our community has given us a unique understanding of the people we serve and the capacity to offer services unlike any other institution in Massachusetts.**

For over 150 years, our rich history has defined our Dimock Difference. Our founding as the first hospital in New England for women, and an institution where the first African American nurse graduated, are examples of the legacy that has paved the way for our growth and success. **Today, as a known leader in innovative and integrated care, we are able to transform the lives of almost 20,000 patients and families each year.**

With your generosity and support, we continue to strengthen our model of care and improve health outcomes for thousands of patients like Craig, a resident in our Askia Academy residential recovery program. Craig knew that he was at a point in his life where he needed to make a change and his decision to further his recovery at Dimock became the first step. In his first days, Craig was immediately connected to the health center for further evaluation, a critical step in our integrated model. There Craig received a full health assessment and within days, our clinicians developed an integrated care plan specific to his needs. Soon thereafter, Craig met with our financial counseling staff, who provided guidance on ensuring full insurance coverage and housing during his entire yearlong stay with us. For the first time in many years, Craig had the help and support he needed. Today his journey remains successful because of the outstanding primary care and mental health support he received. **This is Dimock at its best—integrating services for those in need.**

Like Craig's story, the stories reflected in the pages of this annual report are examples of the significant impact of your partnership. Our ability to provide patients and families with integrated services from inpatient and outpatient addiction services, to primary care and early education, would not be possible without you. With your support, we are a stronger and more capable Dimock—transforming lives and building a healthier community.

Thank you for being a part of the Dimock family.

Sincerely,

Peter Gerondeau
Interim President and CEO
The Dimock Center

Bob Rivers
Chair & CEO, Eastern Bank
Chair, Dimock Community
Foundation Board

We Are DIMOCK

community.

AND TOGETHER WE ARE THE

DIMOCK difference

Richard Marotta,
President and CEO,
Berkshire Bank

We are honored to recognize **Berkshire Bank** as one of our newest and most active partners. Our partnership with Berkshire Bank is a model of corporate commitment, including philanthropic support and employee engagement. We welcomed the Bank into the Dimock Family two years ago, and since then their commitment to The Dimock Center has only grown through their generosity and partnership.

As a dedicated partner, the Bank's commitment to economic and financial stability within the community was best exhibited through the recent launch of an **innovative financial empowerment program** led by Rob Torres, Vice President, Relationship Manager at Berkshire Bank, in support of our residential substance use and recovery programs. The program combined group financial education classes, one-on-one coaching, and ongoing support that equipped men and women with the knowledge, skills and services they need as they work toward self-sufficiency.

In addition to the financial program, we were so proud to partner with Berkshire Bank for the launching of the **Thaddeus Miles Community Leadership Scholarship**. Named in honor of Thaddeus Miles, Director of Community Services at MassHousing, and the founder of HoodFit, the scholarship reinforces the important connections among health, financial stability and education. The scholarship, supported by the Berkshire Bank Foundation, will support young people who live in the greater Roxbury Community served by The Dimock Center, to provide critical resources for college.

We are so grateful to Berkshire Bank for their continued generosity and support of our annual Steppin' Out and Road to Wellness 5K events. The depth of the company's partnership and dedication to our patients and families has a profound impact on our mission and will contribute greatly towards further growth and advancement within the services that The Dimock Center provides.

City of Boston's COMMUNITY PRESERVATION FUND

The Dimock Center was honored this past year to receive a grant from the **City of Boston's Community Preservation Fund** to restore more than 100 windows of the historic **Dr. Marie Zakrzewska "Z" Building** to preserve its founding architecture and character. Funds generated from the Community Preservation Act help communities preserve open space and historic sites, create affordable housing, and develop outdoor recreational facilities.

The City's tremendous generosity provided an opportunity for The Dimock Center to expand our capacity and continue leadership in the provision of healthcare, human services, and education within Roxbury and surrounding neighborhoods. Dimock's commitment to caring for the buildings on an historic campus stems from the deep pride and gratitude to our founding pioneers. This project allowed Dimock to uphold that commitment, while strengthening the integrated continuum of care for members of the community. Upon completion of the Windows Restoration Project and other upgrades to the building, Dimock plans to expand its residential recovery programs to the "Z" Building, providing up to one year of support to people in recovery.

Mayor Martin J. Walsh visits in April 2019 with Christine Poff, Community Preservation Director, and Marty Martinez, Chief of Health and Human Services, City of Boston

Mayor Walsh visited Dimock's campus in Spring 2019 to celebrate this significant grant, while also marking the one-year anniversary of the Dr. Lucy Sewall Center for Acute Treatment Services, located directly across Dimock Street.

"The renovation of the "Z" Building is a great example of CPA dollars in action: it pays tribute to our City's history and allows Dimock to create a residential recovery program that will serve us into the future," said Mayor Walsh. "Dimock is an asset to our City, and it's an inspiration to me. I thank them for their tireless work in developing affordable treatments, improving access to care, and fighting the stigma around recovery."

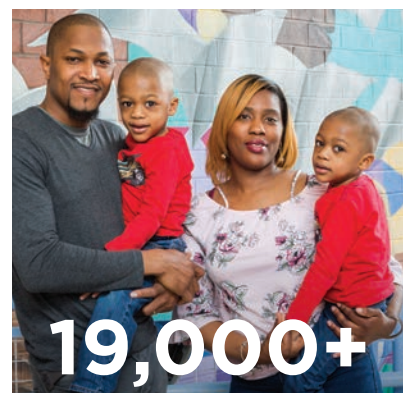

In January 2020, we were awarded with another generous grant from the Community Preservation Fund and we are so grateful for their continued commitment and support. Their significant impact aligns directly with the City of Boston's priorities and goals for its residents, specifically to provide comprehensive, neighborhood-based, accessible care for all.

DR. MARIE ZAKRZEWSKA "Z" BUILDING

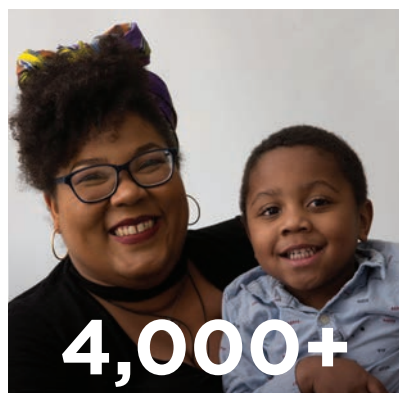

Dimock's Integrated CONTINUUM OF CARE

Dimock's services are designed to build the capacity of the whole person and address the full scope of the physical, developmental, and behavioral needs of our community.

Dunkin' Joy in Childhood WELLNESS FOR ALL INITIATIVE

We are honored to recognize the Dunkin' Joy in Childhood Foundation as one of The Dimock Center's newest partners in the significant work towards accessing quality healthcare and wellness for all. We are grateful for the Foundation's generosity and support for our Head Start's **Wellness for All Initiative** for low-income infants, toddlers and preschoolers, and their parents. This initiative engages classroom teachers, parents and families in healthy food preparation and cooking classes that can lead to manageable changes in food choices and healthy habits. These activities address hunger and food insecurity, nurture joy in families in preparing and eating healthy foods together, and ensure that young children access critical primary care for optimal health and development.

DUNKIN' JOY
IN CHILDHOOD FOUNDATION

“The mission of the Dunkin' Joy in Childhood Foundation is to provide joy to kids battling hunger or illness, which is why we are proud to support The Dimock Center. We know that when kids have the proper nutrition, they can play more, learn better, and have the energy to just be kids.”

Kari McHugh

Senior Director, Customer and Community Relations Joy in Childhood Foundation, Dunkin' Brands

This past year, we engaged families in our monthly healthy cooking classes led by our Health and Nutrition Manager, Cheeky Martin. Families attained greater knowledge about healthy food options that led them to make changes in their eating and movement habits.

“Sometimes, it's a matter of substituting only two items for healthier options when lowering a meal's calories and improving its nutrition. I also encourage parents not to give up, knowing that it may take a while for their kids to get used to a healthy option,” says Cheeky Martin, Health and Nutrition Manager at The Dimock Center.

Cheeky also worked diligently to educate and train teachers in the benefits and joy of preparing healthy snacks with children in the classroom. She created excitement in making and choosing healthy snacks and engaged classroom teachers, parents and families in maintaining and growing the Dimock garden, to use as a resource for healthy vegetables.

We are so grateful to Cheeky for the work that she has done in the growth and development of this new program and initiative, and we extend our deepest gratitude to the Dunkin' Joy in Childhood Foundation for their tremendous partnership and support. We look forward to our continued work together towards our mission to heal and uplift individuals and families as we redefine the model of a healthy community.

“The Joy in Childhood Foundation is honored to include The Dimock Center as one of the distinguished organizations that it supports. Dimock's mission is in full alignment with the Joy in Childhood Foundation to ensure all children are happy and healthy.”

Clayton Turnbull

Chief Executive Officer, The Waldwin Group and
Past Chair, Dimock Community Foundation Board

Road to Wellness 5K

The Annual **Road to Wellness 5K Walk/Run** welcomes more than 1,000 participants, volunteers, and community representatives each year. With the partnership of The Dimock Center, HoodFit, and The Boston Athletic Association, The Road to Wellness continues to expand the number of participants walking and running, and improves the event's accessibility. In 2018, the category for the blind and visually impaired was established, and has since continued to grow. The Tufts Health Plan Health and Fitness Pavilion reached a record number of 42 vendors in 2019 and the Kids' Fun Run hosted by Reimagine Play had over 40 children running, jumping, and playing.

A new partnership with **Tedy's Team**, founded by former Super Bowl Champion and New England Patriots player Tedy Bruschi, has created new opportunities to spread the wellness message of lifelong fitness and health. Throughout the year, members of the community were invited to participate in Talk and Walks with Tedy Bruschi, to learn about heart health and connect with local resources for healthy living.

STEPPIN' OUT

The Dimock Center's **Steppin' Out** is our largest source of unrestricted dollars. Your generosity and support provides hope for close to 20,000 patients and families annually.

Dimock has had the privilege of honoring long-standing partners whose impact contributes greatly towards Dimock's success. Recent recipients of the Dimock Difference Leadership Award include **David Long**, Chairman, President and CEO of Liberty Mutual Insurance (2018) and **The TJX Companies Inc.**, with Ernie Herrman, CEO and President (2019), accepting this award on the company's behalf.

In 2019, we presented the inaugural award for "Leaders Who Heal and Uplift Our Community," to **Congressman John Lewis** in honor of his diligent work to reduce racial and ethnic disparities in the field of health and human services.

Steppin' Out continues to have a rich legacy in music and entertainment, which has featured legendary music performances over the years. Most recently, we welcomed R&B legends Johnny Gill, Patti Austin and DJ Spinderella, whose unforgettable performances had the crowd dancing all night.

Sanofi Genzyme

The Red Sox Foundation

Dear Dimock Family,

Thank you for your generosity and for being a part of the amazing work that we see every day at The Dimock Center. I hope you enjoy reading the stories in this report that clearly demonstrate the impact of your giving.

We are deeply grateful to the individuals, corporations and foundations who support Dimock. Traditionally, on this page we would list our supporters over the past year. Instead, at this time, we are including beautiful photos of you and the patients and families whose lives you have touched. We will publish a special Donor Honor Roll this summer recognizing our generous supporters since the last published list. We look forward to including those who contribute to our recently created **Dimock Emergency Fund** supporting our response to the pandemic.

We would also like to extend a special thank you to the members of our Community Foundation, Health Services and Community Services Boards, and the President's Council for their generosity and leadership. They play a critical role in supporting Dimock each day.

Meeting the mission of healing and uplifting families would not be possible without all of your kind and caring support. We are truly grateful for your partnership and commitment to the health and wellbeing of the community.

Thank you all for being a part of our Dimock Family,

Raquel Rosenblatt

Dental Sealants for Children 6-9 Years	55%		

The Dimock Difference in Diabetes

In 2019, Dimock piloted a team-based specialty diabetes clinic within primary care. With a team of diabetologist, pharmacist, per diem nutritionist, and connection to social resources, Dimock launched two major components: specialty diabetes services within a community health center, where tertiary specialty diabetes services (with innovative technologies such as continuous glucose monitoring) are more easily accessed by underserved populations; and a series of diabetes self-management classes, where our per diem nutritionist and pharmacist worked with a group of patients with diabetes weekly, focusing on healthy eating, cooking, medication education and physical activity.

Service Days

Service Days at The Dimock Center are one of the most powerful ways that our partners in the Boston community can support our work. The time dedicated by more than **500 volunteers from 15 companies and organizations** made a transformational impact on our campus and programs in the past year. With projects ranging from weekly fitness and financial literacy classes for our residential recovery homes, to creating new and improved green spaces on our campus for patients, families, and students to enjoy, the effort put in by our amazing volunteers has been invaluable.

Our heartfelt thanks to the Red Sox Foundation for their significant support this past year.

We are honored to be one of the Foundation's cornerstone programs, whose comprehensive support helps us serve more than 1,000 children annually, provides critical resources to our residential recovery programs and contributes volunteer hours to service the needs of our campus. Our partnership spans more than 18 years and continues to have a long-lasting impact on our community. Together our transformative work makes a difference in the lives that are touched each day and we are proud to have the Foundation as part of our Dimock Family.

“The Red Sox and the Red Sox Foundation are honored to continue our longstanding partnership with The Dimock Center. Their innovative approach to comprehensive and affordable health care is a model that is changing the way we care for the typically underserved. We’re excited for many more years of collaboration and support!”

Bekah Salwasser
Executive Director, Red Sox Foundation
